

Art parquet is produced from material that originates directly from art production, functions as a presentation surface for art, protects art during transport, or is part of an artwork.

Only wood is used:

- **Stretcher frames, laths or other construction components, easels, etc.**
- **Work surfaces, shelves (if they are used to store artist's materials)**
- **Transport boxes/cases**
- **Parts of sculptures, installations, art works**
- **Parts of models**
- **Parts of presentation walls, display cases etc.**

There are no restrictions with respect to the state of the wood - the range includes all types of wood together with their surface coatings; whether solid wood, pressboard, MDF, coated with Formica or veneered, glazed or varnished.

The donor is free to sign the material or to identify it in some other way.

There is no need to saw the material into shape!

All of the materials collected will be processed into parquet timbers and laid out as an area of art parquet in the classic fishbone pattern.

The materials will be collected within Berlin. A separate appointment will be arranged with each donor. For all other potential donors: you are welcome to send us materials, but sadly we are unable to refund any postal charges.

Mailadress:

**barbara caveng
jonasstrasse 66
12053 berlin**
